BODY CARE MILK

Designed by Alland & Robert, Blend Cream is a blend of acacia and sterculia gums that generates outstanding textures in cosmetics and care products.

Blend Cream makes it possible to formulate skincare with excellent penetration without soaping, and a rich and creamy texture with no sticky or glutinous effect.

Multifunctional, natural, vegetal, eco-friendly, Blend Cream presents excellent viscosifying, emulsifying and filmforming properties while keeping 100% bright effect without any drawback on the color of the final cosmetic formula.

Blend Cream is part of the Alland & Robert DemeCare[®] range.
