STREAMLINE YOUR APPROACH AND DETERMINE YOUR MARKET OPPORTUNITIES

We take into account the challenges and current trends in your specific market:

- ☆ Clean Label and naturalness
- ☆ Promoting vegan products
- ☆ Nutrition
- ☆ Improving the Nutri-Score
- ☆ Nutritional claims
- ☆ Ingredient substitutions

FOOD PRODUCTION AND DIETARY SECTOR

Let's work together to create the food of the future, through cooperative collaboration that will enable us to meet the expectations of your consumers.

- ✓ Conceptualisation and development to work for you
- ✓ Recipe optimisation
- ✓ Improvement of nutritional profiles or Nutri-scores
- ✓ Guidance in substituting animal products

COSMETICS SECTOR

The cosmetics sector is constantly reinventing itself with the goal of boosting sustainability and naturalness. In order to contend with these various market challenges, we put our experience and expertise in cosmetic ingredients to work for you.

- ✓ Formulation assistance
- ✓ Application of our 100% natural plant-based hydrocolloids
- ✓ Guidance in substituting synthetic products

PUTTING OUR TECHNICAL EXPERTISE TO WORK FOR YOU

- **Establishing a design of experiments**
or analysis of primary components/formula optimisation
- **Cutting-edge equipment:**
high-pressure homogenizer, ultrasonic homogenizer, laser diffraction analyser, texture analyser, rheology software
- **Access to academic resources**
via university partnerships
(IATE – Montpellier, URCOM – Le Havre)
- **Establishing practical partnerships**
for production in technical centres based on your needs
- **Design thinking:**
setting up workshops in your new applications laboratory – holding webinars with the innovation teams to encourage the emergence of creative ideas and deeper understanding of your needs (confectionery, beverages, dairy products, fibre supplements, etc.)

SUPPORTING YOUR COMMERCIAL AND MARKETING STRATEGY

- **Market studies and trends**
- **Targeted studies based on your client needs:**
compatibility, synergies, rheology, etc.
- **Access to R&D platforms around the world**
through our network of agents, providing tangible solutions adapted to new formulation projects
- **Marketing support**
to showcase the introduction of our gums into your products
- **Regulatory and health assistance**

UNIQUE EXPERTISE: EMULSIONS AND ENCAPSULATION

- **Formulation assistance**
regardless of the application
- **Laser diffraction analysis**
- **Production feasibility studies**
in our new drying facility: facilitating your industrial development and ensuring comprehensive, optimised integration of your formulae
- **Stability testing**

WHY CHOOSE US?

Founded in 1884, Alland & Robert is a family-run French company, and a pioneer in natural tree exudates. Our company is widely renowned in the field of natural gums, which are a commonly used ingredient in consumer products around the world. We have a long history of working with major industrial groups, and export to over 70 countries.
